

Why is VAT important and what is a valid VAT receipt?

Why is VAT important?

SLT and BPT pay VAT only on the difference between the amount of VAT they have collected from ticket sales, room hire etc and the amount of VAT it has paid on utilities and purchases in order to deliver the services. Hence if you provide a VAT receipt we effectively only pay the net amount.

What is a valid VAT receipt?

A VAT receipt under £250* MUST have the following details:

- The business name, address
- The **business VAT number** of the business you are purchasing from.**
- Invoice date
- A description of the items
- The VAT rate
- The total amount payable including VAT

*Over £250 the VAT receipt must also have the business that is purchasing the goods and services (so in our case SLT or BPT company name and address).

**Some smaller businesses and charities aren't registered for VAT, and you cannot claim VAT on those purchases.

How do I get a VAT receipt from Amazon?

Log into your Amazon account and use the drop down menu for accounts and lists at the top right of the page to select orders. Then for the order you have made click in the top right hand corner where it says Invoice, then select Invoice.
